Washington Science Olympiad

Dear Members of WSO,

My name is Abigail Jiang, and I am writing to apply for the position of Student Advisor for Washington Science Olympiad.

I am currently a junior at Camas High School as part of our Science Olympiad's Black Team. Over the past year, I served as the Vice President of our school's club, and served as a Student Advisor to WSO as well. I have dedicated my time to improving Science Olympiad in my school district through hosting tournaments and providing coaching support for the A, B and C divisions. This year, I hope I can continue contributing to WSO, as Science Olympiad is a program that has made a genuine impact on my high school experience and future career.

With the position of Student Advisor, I will offer my unique perspective as a student and competitor to better Washington State's Science Olympiad program. I would like to impact Camas High School's approach to Science Olympiad as well, whether it be through increased community involvement or improved organization. Overall, I hope to facilitate communication between the members and directors of WSO, and make it a better experience for students, parents, coaches and the communities surrounding this state-wide program.

Thank you for considering my application, and I look forward to becoming a Student Advisor for Washington Science Olympiad again this upcoming year.

Sincerely,

Abigail Jiang
