Subject: Intent to run for Washington Science Olympiad State Board Position 2023

Please accept this letter to confirm my intent to run for Washington Science Olympiad State Board for the coming board term starting July 2023.

My experience in Science Olympiad began as a coach for five years for Ilwaco Jr/Sr High School from 1996 – 2000. Lower Columbia College has been a regional site for the SW Regionals for 2009-2023 regional tournaments. I've been event supervisor for invitational & NW tournaments from 2014 to present.

My experience in science includes work for BOEING as an industrial Engineer for five years, followed by education in Mathematics and Computer Science. I have a Bachelors in Mathematics and a Masters in Computer Information Systems.

I look forward to the possibility of representing the SW Region as well as the rest of our state as a board member for the coming term.

Sincerely,

A handwritten signature in black ink that reads "David L. Rosi". The signature is written in a cursive style with a large initial "D" and "R".
